DETAILED ACTION

This communication is a further non-final rejection on the merits in response to amendments received on June 21st, 2011.

Response to Amendment

1. Upon review of the Applicant's amendments, the previous rejection applied under 35 USC 112, first paragraph, is no longer applicable and is hereby withdrawn.

Interference

- 2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 135(b)(2) that form the basis for the rejections under this section made in this Office action:
 - (b)(2) A claim which is the same as, or for the same or substantially the same subject matter as, a claim of an application published under section 122(b) of this title may be made in an application filed after the application is published only if the claim is made before 1 year after the date on which the application is published.
- 3. Claims 41-51 are rejected under 35 U.S.C. 135(b)(2) as not being made prior to one year from the date on which application serial no. 11/668,124 (now U.S. Patent No. 7,975,594) was published. The aforementioned patent was published on July 10th, 2008, and the interference claims were submitted on May 25th, 2011. The claims filed prior to July 10, 2009 were very broad in nature and not for "substantially the same subject matter" as is now being claimed. See MPEP 2304.02(c) II. "Compliance with 35 U.S.C. 135(b)".
